

# THE BVLGARI SPA AT BVLGARI RESORT BALI PRESENTS AUGUSTINUS BADER

*Augustinus Bader at The Bvlgari Spa, Bvlgari Resort Bali*

Bali, May 15<sup>th</sup>, 2026 Bvlgari Resort Bali introduces luxury science-backed skincare brand, Augustinus Bader at The Bvlgari Spa, marking the arrival of the skincare house's facial treatments designed to support skin rejuvenation and improve skin radiance, elasticity, and overall texture, within one of the resort's most defining spaces.

Set within the resort's cliffside sanctuary, The Bvlgari Spa in Bali is shaped by its surroundings. Treatment rooms open towards uninterrupted ocean views, where the sound of waves carries through the space and tropical greenery frames the experience. The setting remains closely tied to the treatment itself, extending the sense of calm beyond the room.

Augustinus Bader approaches skincare through a lens of precision, performance, and long-term skin health. Rooted in decades of scientific research, the brand is dedicated to creating high-

performance formulations that work in harmony with the skin, supporting its natural processes while delivering visible and lasting results.

Powered by the brand's proprietary TFC8® technology, each product is developed with an uncompromising commitment to quality, efficacy, and innovation. The technology is designed not only to address immediate concerns, but to improve overall skin function over time. This philosophy extends seamlessly into the spa experience, where treatments are designed to offer a refined, immersive experience, one that is as results-driven as it is restorative.

The launch is marked by the presence of **Christiane Werron, Executive Director Global Education & Spa Distribution at Augustinus Bader**, whose role supports the integration of the brand's methodology and training within The Bvlgari Spa.

The collaboration brings a selection of 4 facial treatments developed around Professor Augustinus Bader's award-winning TFC8® patented technology.

The **Augustinus Bader Exclusive Bvlgari Facial** is introduced as the most comprehensive expression of this approach, combining TFC8® technology with customised fascia massage and Gua Sha techniques to support skin renewal and refine facial contours. The 90-minute protocol includes a double cleanse, followed by the application of formulations designed to enhance the skin's repair cycle, and concludes with a detoxifying mask and scalp massage.

Alongside it, the **Augustinus Bader Longevity Facial** offers a parallel 90-minute experience focused on sustained skin vitality, featuring a triple cleansing ritual, targeted massage techniques, and active formulations to support cellular function, finishing with a mask treatment and an extended hand and arm massage using Augustinus Bader body products.

The collection is further complemented by the **Augustinus Bader Glow Facial** and the **Augustinus Bader Jet Lag Facial**, shorter treatments designed to address specific skin concerns through tailored, results-driven protocols.

*"With the introduction of Augustinus Bader at The Bvlgari Spa, we are combining scientifically proven techniques and ingredients with the warmth of Balinese hospitality, all in a setting overlooking the ocean," says Carlo Bevilacqua, General Manager of Bvlgari Resort Bali. "What makes this collaboration so meaningful is the way these elements come together so naturally. On one hand, there is a very advanced and precise approach to skincare, and on the other, there is the sense of care, calm, and personal attention that defines the experience at our resort."*

Augustinus Bader facial treatments are now available at The Bvlgari Spa, Bvlgari Resort Bali.

## About Augustinus Bader

Augustinus Bader is a premium, multi-award-winning skincare and haircare brand built on more than 35 years of pioneering research in stem cell biology and regenerative medicine. Launched in 2018 and rooted in the groundbreaking work of Professor Augustinus Bader, MD, PhD — a world-renowned expert in stem cell research — the brand introduced its iconic “blue bottle” formulas, The Cream and The Rich Cream, setting a new standard in science-led skincare.

At the core of the brand is TFC8®, Trigger Factor Complex™, a proprietary technology developed from Professor Bader’s research, designed to improve skin cellular communication, enhance the skin’s natural renewal process, and combat visible signs of aging and damage. This technology forms the foundation of AB Science™ — the brand’s innovation platform, driving ongoing research, formulation, and product development.

Today, AB Science™ continues to translate advanced research into industry-leading innovation, powering a curated collection of high-performance, clinically proven essentials across skin, hair, and complexion — trusted by the world’s leading experts. The brand has received over 200 awards and was named “The Greatest Skincare of All Time” by WWD Beauty Inc. in 2026.

## About The Bvlgari Spa at Bvlgari Resort Bali

Set on the oceanfront, The Bvlgari Spa at Bvlgari Resort Bali brings together a singular setting and a curated menu of treatments rooted in traditional Asian techniques.

The architecture pairs contemporary design with traditional Balinese elements, anchored by an antique hand-carved teak Joglo House relocated from Kudus, Central Java. Its intricate carvings reflect the Javanese, Chinese, Arabic, and Hindu Majapahit influences that have shaped the city over centuries. Water ponds, native woods, and expansive windows create a calm, modern environment throughout the space.

The Spa features six treatment rooms and two royal pavilions with private gardens, outdoor rain showers, and plunge pools. Additional facilities include an open-air relaxation lounge, a yoga pavilion, a swimming pool, a beauty salon, a state-of-the-art fitness centre, aromatic steam rooms, and rain showers.

The menu offers a complete range of Balinese, Asian, and European therapies, including the exclusive Bvlgari Signature Experiences such as the Bvlgari Royal Lulur, Healing Stone Therapy, and Herbal Revival. Multi-hour packages, intensive facials, body wraps, holistic massages, and in-villa services are also available.

Every treatment begins with a Balinese foot ritual and closes with organic tonics or herbal tea, completing a personalised and attentive Bvlgari Spa experience.
